Biopharma Strategy Consultant (f/m/x)

About us

Catenion is a management consulting firm devoted to helping pharmaceutical and medical products companies create more innovative and effective strategies.

We draw on our deep understanding of industry trends, company dynamics and data analytics to help our clients develop actionable competitive strategies and create the organisational climates that foster creativity and medical breakthroughs. At the same time, we greatly improve how our clients assess the value and risk of their project and product portfolios and resource allocation.

We are currently expanding our Berlin team and are hiring all year round.

Your qualifications and tasks

We are hiring candidates who have an MSc or PhD in life sciences and have additional experience in handling and processing scientific data or have completed a degree in bioinformatics or similar.

Requirements

- Excellent academic record in a Life Science subject
- Fluent English skills (writing and speaking)
- Great communication and presentation skills
- Experience with databases and structures
- Proficiency in at least one programming language (preferably R or Python)
- International work experience
- Willingness to travel

What we offer

- Exciting and diverse tasks and problems covering all angles of the R&D strategy in Biopharma
- A permanent position with an indefinite employment contract
- Attractive remuneration systems
- Diverse career and development opportunities
- Friendly and highly supportive working environment
- A modern workspace in the trendy city center of Berlin
- Yearly company retreats
- The Catenion “Family” organising company events such as Team Lunches, Yoga & Meditation classes, Urban Sports Club membership, etc.

We are interested in people who show initiative and curiosity and have a passion for learning. Working as a Data Scientist and Consultant at Catenion requires you to possess excellent analytical and numerical skills as well as a fast-thinking and creative mind, a sense of humour and great people skills.
