

# Biopharma Strategy Consultant with Data Science Background (f/m/x)

---

## About us

Catenion is a management consulting firm devoted to helping pharmaceutical and medical products companies create more innovative and effective strategies.

We draw on our deep understanding of industry trends, company dynamics and data analytics to help our clients develop actionable competitive strategies and create the organisational climates that foster creativity and medical breakthroughs. At the same time, we greatly improve how our clients assess the value and risk of their project and product portfolios and resource allocation.

We are currently expanding our Team.

## Your qualifications and tasks

We are looking for colleagues who will work both as a Strategy Consultant and a Data Scientist. You hold a Master degree or a PhD in Bioinformatics, or in Computational Engineering with strong focus on Biological Sciences, Health Science & Technology or Life Sciences. You will interact directly with clients and present your quantitative & qualitative analyses on scientific, clinical and market data, and formulate recommendations.

## Requirements

- Excellent understanding of biological processes
- Proficiency in at least one programming language (R or Python)
- Proficiency in using omics data sets (TCGA, RefSeq etc.)
- Experience with text-mining and data wrangling methods
- Demonstrated ability to understand, analyse and integrate scientific and clinical data
- Ability to deliver excellent quality work under high pressure circumstances
- Excellent communication and presentation skills in English (written and spoken)
- Strong drive with a desire to make an impact on biopharma and life sciences industries
- International work experience

## What we offer

- Exciting and diverse tasks and problems covering all angles of the R&D strategy in Biopharma
- A permanent position with an indefinite employment contract
- Attractive remuneration systems
- Diverse career and development opportunities
- Friendly and highly supportive working environment
- A modern workspace in the trendy city center of Berlin
- Yearly company retreats
- The Catenion “Family” organising company events such as Team Lunches, Yoga & Meditation classes, Urban Sports Club membership, etc.

We are interested in people who show initiative and curiosity and have a passion for learning. Working as a Data Scientist and Strategy Consultant at Catenion requires you to possess excellent analytical and numerical skills as well as a fast-thinking and creative mind, a sense of humour and great people skills.
